The special one. Quality features such as a cover image with glossy-foil embossing, high-quality 8-colour offset print and carbon-neutral production on FSC-paper, which is based on wood from a sustained forestry, make this calendar unique and distinguishes it from typical mass produced calendars. The quadrilingual calendar has an attractive design and offers enough space for personal notes.

As successor products of the Pocket Art, the new Hundertwasser Agenda and also the new notebooks are captivating through improved functionality. The new format of 15.4 x 11.2 cm is very suitable for the handbag and offers enough space for daily notes. Different types of paper allow to write on the pages and at the same time, brilliant colour reproduction of the 16 Hundertwasser artworks contained. The paper we use for the production is FSC-paper, which is based on wood from a sustained forestry. The ribbon, the inner expandable pocket and the elastic band closure also improve the functionality, in comparison to our former products. The cover with different glossy-foil embossings is an optical highlight and underlines the quality of the new books. The calendar of the Agenda gives a double-paged weekly overview. The notebooks contain blank pages to allow an individual design of the daily notes.

CREATIVE MODELLING CLAY - HOMMAGE À HUNDERTWASSER

EAN: 4280000853202
 Order No.: KN-202

Authorized for sale only within the EU and Switzerland!

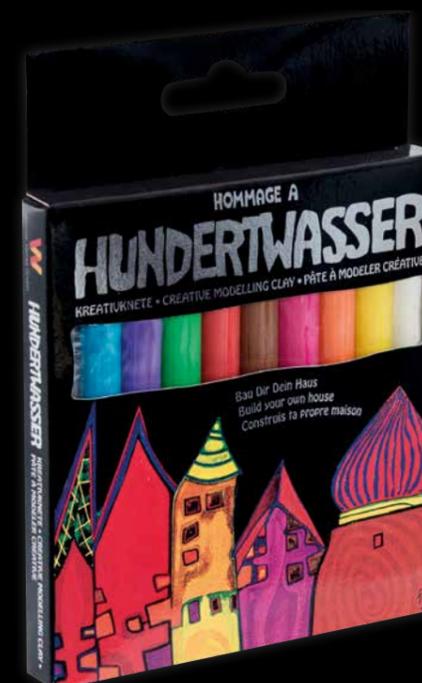

Format: ca. 16.5 x 12 x 1.5 cm
 10 bars of creative modelling clay
 No preservatives, food safe, non toxic
 Recommended from an age of 4 years on
 Packaging with glossy-foil embossing
 Made in Germany

The creative modelling clay is a homage to Friedensreich Hundertwasser who said: "Our real illiteracy is not the ignorance to read and write and not the incapability to repeat other people's knowledge, but the inability to create. A child possesses this creative ability." (Hundertwasser, 1981). The creative modelling clay picks up on exactly this idea. Children as well as adults should be creative again. This does not mean to recreate a Hundertwasser building but to create your own dream house. How would you prefer to live?

Each package contains 10 bars of creative modelling clay which is made in Germany. The modelling clay can be processed very easily and is suitable for

everyone 4 years and older. The packaging is attractively designed and is finished with glossy-foil embossings and UV lacquer. Already the packaging with its gloss and mirror effects motivates children and adults to create beautiful houses out of the modelling clay. The creative modelling clay is also perfectly suited as a special gift for children as well as adults.

The creative modelling clay is made of micro-waxes, such as those used for food and cosmetic products, of pure paraffin oil according to the German Pharmacopoeia, and of pure mineral fillers. The modelling clay contains no preservatives, is food safe, non toxic, formaldehyde-free and gluten-free. It does not dry out over several years and will remain flexible and dimensionally stable.

Friedensreich Hundertwasser 1928-2000 **Painter, Architecture Doctor, Environmental Activist**

Friedensreich Hundertwasser was born as Friedrich Stowasser in Vienna on December 15, 1928. He changed his name to Friedensreich Hundertwasser and later on he added Regentag and Dunkelbunt to his name.

Hundertwasser is one of the 20th century's most celebrated European artists. His works were exhibited in museums in many countries on five continents.

As of the early 1950s, Hundertwasser was concerned with architecture, and consistently pursued his goal of a more human architecture in harmony with nature. In his manifestos, essays and demonstrations he expressed his rejection of rationalism in architecture, of the geometric straight line, the grid-system and of the so-called functional architecture. From the 1980s he realized architectural projects integrating window right and tree tenants, uneven floors, afforestation of the roofs, and spontaneous vegetation. In his architectural oeuvre, Hundertwasser performed diversity instead of monotony, replaced the grid system with an organic approach and implemented unregulated irregularities.

Intuitively, Hundertwasser detected like a seismograph the dangers and false developments, whether it was in architecture, social and natural life or the ecology and the environment. Hundertwasser was a forerunner of the green movement. He committed himself to the preservation of our natural surroundings and a life in harmony with the laws of nature. He wrote numerous manifestos and designed and donated posters in support of the protection of nature; against nuclear power, for the saving of the oceans and the whales and for the protection of the rainforest, to name only a few examples. Much of Hundertwasser's contribution to architecture (green architecture) as well as to ecology is of everlasting validity.

In a time of mediocrity, of aesthetic emptiness and the soullessness of prefabricated goods, Hundertwasser's endeavour for the hidden human longing for variety and beauty in harmony with nature is manifested. In accordance with his philosophy, "Beauty is a Panacea", Hundertwasser wished to restore beauty and romanticism to everyday life.

Hundertwasser died on February 19, 2000 while on board of the Queen Elizabeth 2 on his way back from New Zealand to Europe. In accordance with his wishes, he is buried in harmony with nature on his land in New Zealand, in the Garden of the Happy Dead, under a tulip tree.

As the world's only publisher to specialize exclusively in products by artist Friedensreich Hundertwasser, we offer a comprehensive range of different Hundertwasser products and more than three decades of experience in producing the highest quality print products. A long-standing, friendly collaboration with Hundertwasser and design in line with his specifications form the basis for our current selection and the motivation to do justice to his artistic ambitions in all of our products. Hundertwasser himself has always said that reproductions of his works should be better than the original as they will be seen by a lot more people. In line with his directions, additional colours such as gold, silver, special red, matt black and matt paint are used as well as glossy-foil embossing and UV lacquer to create exceptional and individual premium products which are unique in terms of their appearance and quality. In order to ensure the exceptional quality of our products, 90 % of our products are manufactured in Germany by using the latest printing and processing techniques.
